

PROGRAM REPORT

Jordan Valley Health's Substance Use Disorder (SUD) program provides medication-assisted treatment (MAT) for individuals struggling with addiction to ANY substance including opiates, alcohol, and stimulants. Walking in to one of our clinics ensures same-day help whether it is the first time or during the recovery process. Our team is here to provide step-by-step assistance for patients and to collaborate with community partners.

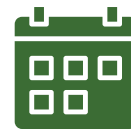

3,575

Estimated total number of SUD/MAT patients from January 2024-August 2026

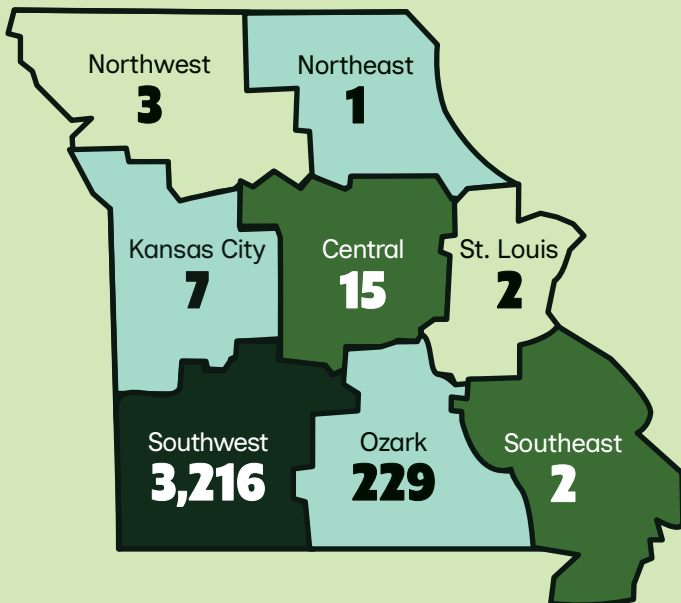

1,798

Patient Testimonial

“5 months ago I was living a not so good life. I was a drug user, living in my car and just really not wanting to live. I decided to go to sober living and come to Jordan Valley for help. The first month I noticed that life was changing for the better. 4 months later I bought a truck, got my own place and have a good relationship with my family. Jordan Valley is an amazing place that knew exactly what I needed and knew exactly how to treat what I had wrong with me. I never thought I would be where I am today. I went from wanting to literally just die to loving my life. Thank you [to] new beginnings and Jordan Valley for helping me get my life back. I owe you the world.”

- Jacob S.
